Edelweiss continues to record consistently improved financial and business performance quarter on quarter in each of the last five quarters despite challenging environment for most of this period. This is a result of the conscious strategy to de-risk our business model by constantly diversifying across businesses, asset classes, client segments and markets to reduce volatility in performance. These results are after the impact of investments made in incubating our new businesses aimed at securing future growth - Life Insurance and Retail Financial Services.

Speaking on the occasion, Mr. Rashesh Shah, Chairman and CEO, Edelweiss Financial Services Limited said:

"After nearly four quarters of tough operating conditions, third quarter environment showed early signs of improvement as the government moved on the path to economic reforms. The sentiment improved gradually with adequate liquidity, easing inflation, higher FII inflows, commodities prices consolidating and the hopes of a rate cut by RBI. However, reversal of capex investment cycle, controlling inflation, managing current account and fiscal deficit, and continuation of reforms process hold the key to return of sustainable growth.

Speaking for Edelweiss, sequential improvement recorded in financial and business performance in each of the previous four quarters continued in this quarter as well. In fact, while the insurance burn is as per the plan, our profitability parameters ex-insurance have recorded a significant growth. This is a result of constant investment made by us to diversify our businesses to reduce volatility in performance. With the business diversification phase nearly over, we are now focusing on improving efficiency and productivity while building scale in Retail businesses. Given the strengths of Edelweiss, we are confident that when growth returns soon, we will be able to fully translate the upside into solid business performance."

Financial Highlights:

- * **Interest and Capital based income** is ₹ 439 cr for the quarter (₹ 373 cr in Q3FY12), up 18%. This income stream includes income from Credit and Commodities businesses and Treasury operations.
- * **Fee & Commission income** from agency businesses is ₹ 83 cr for the quarter (₹ 77 cr in Q3FY12), up 8% only reflecting challenging operating conditions in the capital markets in the past four quarters. - * Our **Life Insurance business**, which is in a nascent stage, recorded **Premium income** of ₹ 10.4 cr for the quarter (₹ 2.5 cr in Q3FY12).
